

Business Insight And Recommendation Report

Insight 1: South Region Generated Highest Revenue

Observation

South region generated **₹115.1M** revenue, the highest among all territories.

Region	Revenue
South	₹115.1M
East	₹110.6M
West	₹108.4M
North	₹103.4M

Business Insight

The South region demonstrates the strongest commercial performance and market penetration.

Recommendation

- Continue investment in South region.
- Replicate successful sales strategies in lower-performing territories.
- Identify physician engagement practices contributing to superior performance.

Insight 2: North Region Achieved Highest Marketing ROI

Observation

Region	ROI
North	10.22

Region	ROI
East	9.70
South	9.63
West	9.47

Business Insight

North region generates the highest return for every marketing rupee invested.

Recommendation

- Increase marketing allocation in North region.
- Study campaign effectiveness and apply successful approaches across other regions.
- Benchmark North's marketing activities as best practices.

Insight 3: High Revenue Does Not Always Mean Highest Efficiency

Observation

South generated highest revenue.

However, North generated highest ROI.

Business Insight

South is the largest revenue market, while North is the most efficient market.

Recommendation

Management should balance:

- Revenue growth initiatives in South
- ROI optimization initiatives in North

Insight 4: Roy Newman Is the Highest Value Physician

Observation

Top physicians by prescriptions:

Doctor	Prescriptions
Roy Newman	2818
Michael Daniels	2621
Nicole Hernandez	2550
Andrew Moore	2493

Business Insight

A small group of physicians contributes a disproportionately large share of prescription volume.

Recommendation

- Increase engagement frequency with high-value physicians.
- Prioritize them for product detailing and educational programs.
- Develop retention strategies to maintain prescription contribution.

Insight 5: Physician Segmentation Opportunity

Observation

Several physicians exceed 2,500 prescriptions while others remain below 1,500.

Business Insight

Physicians can be segmented into:

- High Value
- Medium Value
- Low Value

allowing more efficient sales-force deployment.

Recommendation

Segment	Strategy
High Value	Frequent engagement
Medium Value	Growth opportunities
Low Value	Limited resource allocation

Insight 6: HeartSafe Is the Leading Product

Observation

Medicine	Revenue
HeartSafe	₹140.2M
NeuroPlus	₹100.6M
SkinGlow	₹99.0M
PainOff	₹97.7M

Business Insight

HeartSafe contributes significantly more revenue than other products.

Recommendation

- Continue promotional support for HeartSafe.
- Ensure product availability.
- Expand physician awareness programs.

Insight 7: Product Portfolio Is Fairly Balanced

Observation

Although HeartSafe leads, the remaining products generate comparable revenue.

Business Insight

Revenue is not dependent on a single product.

Recommendation

- Maintain a diversified promotional strategy.
- Reduce dependency risk on any one medicine.

Insight 8: East Region Achieves Highest Target Achievement

Observation

Region	Avg Achievement %
East	206.0%
North	200.4%
West	198.0%
South	196.5%

Business Insight

Sales representatives in East region consistently exceed assigned targets.

Recommendation

- Study successful sales practices in East region.
- Use East as a benchmark for sales-force training.

Insight 9: Achievement % Does Not Directly Translate Into Revenue

Observation

East has the highest achievement percentage.

South has the highest revenue.

Business Insight

High target achievement does not automatically result in maximum revenue.

Possible reasons:

- Lower targets

- Different market potential
- Product mix variations

Recommendation

Review target-setting methodology across territories.

Insight 10: Strong Overall Sales Force Performance

Observation

All regions exceed 190% average achievement.

Business Insight

Sales representatives consistently outperform assigned targets.

Recommendation

- Reassess target-setting process.
- Introduce stretch targets for top-performing territories.
- Align targets more closely with market potential.
